Stainless Steel Standoffs

Ideal for indoor and outdoor applications or other sensitive environments. They are made from high quality solid stainless steel, and come in a satin brushed finish. They are supplied with protective vinyl washers and work great for most types of wall materials. With clean lines and a modern look they are used mounting displays or signage in just about every office building. Stainless steel standoffs are made in various sizes, allowing for a variety of different projects. The diameter ranges from 12.5mm (1/2") to 38mm (1-1/2"). The length of barrels vary from 12.5mm (1/2"), 20mm (3/4"), 25mm (1"), to 38mm (1-1/2")...
