CONCEPT IDEAS

Brass Standoffs & Spacers

Our standoff supports are machined using only high-grade brass, then plated in chrome, nickel, stainless steel, or satin silver for a beautiful and long lasting appearance. They have a heavy-duty construction and are available in three diameters: 1/2", 3/4" and 1". The length of barrels vary from 1/2" to 4".

They are designed to be used mainly in showcase, display and counter top installations. They are also ideal for mounting glass and acrylic panels, screens, signage, logo panels, photographic frames, decorative structural elements, and can be used in many other interior design applications.

All our supports are supplied with vinyl washers to protect the glass surface. We recommend using these supports with tempered glass only. Do not use with raw or annealed glass.
